CONTENTS TO VOLUME 47

Part 1 February 1992

Nonlinear electromagnetic waves in an inhomogeneous plasma. G. Cicconi 1

Parallel solitary Alfvén waves in warm multi-species beam-plasma systems. F. Verheest and B. Buti 15

Parallel solitary Alfvén waves in warm multi-species beam-plasma systems. Part 2. Anisotropic pressures. F. Verheest 25

Solitary Alfvén waves in inhomogeneous streaming plasma. B. Buti 39

The transformation of plasma equations to normal form in mode conversion theory. B. Sabzevari 49

Electron-acoustic solitons in a weakly-relativistic plasma. R. L. Mace, M. A. Hellberg, R. Bharuthram and S. Baboolal 61

The Zakharov–Kuznetsov equation for nonlinear ion-acoustic waves. K. Murawski and P. M. Edwin 75

Evolution of small-amplitude intermediate shocks in a dissipative and dispersive system. C. C. Wu and C. F. Kennel 85

Expansion of a polarized source into an ambient plasma. M. Dobrowolny and E. Melchioni 111

Time-scales and efficiency of resonant absorption in periodically driven resistive plasmas. S. Poedts and W. Kerner 139

Relativistic and non-relativistic analysis of whistler-mode waves in a hot anisotropic plasma. S. S. Sazhin, A. E. Sumner and N. M. Temme 163

Part 2 April 1992

Long nonlinear axisymmetric surface-wave propagation in a magnetic tube. M. S. Ruderman 175

On the continuity equation for electrons in microwave-afterglow plasmas. H. I. Abdel-Gawad 193

Classical free-electron lasing in an undulating electrostatic field in the axial direction. S. H. Kim 197

Free-electron lasing in the wake field of an elliptical pill-box cavity. S. H. Kim 219

The propagation of a plasma wave with trapped particles in a weakly inhomogeneous plasma. V. L. Krasovsky 235

Stabilisation of collisional drift waves by kinetic Alfvén waves. C. Kar, S. K. Majumdar and A. N. S. Iyengar 249

Poloidal electric field due to electron-cyclotron resonance heating in tokamaks. M. Taguchi 261

Effects on electrostatic fields excited by radio-frequency waves in a bounded plasma due to ponderomotive force. C. R. Gutierrez-Tapia 271

Effects of trapped alpha particles on internal kink modes in tokamaks. P. Helander and M. Lisak 281

Wave propagation in equal-mass plasmas. G. A. Stewart and E. W. Laing 295

Resonant structures within incompressible ideal MHD. C. Zorzan and P. S. Cally 321

Part 3 June 1992

Toroidal equilibrium of a non-neutral plasma with toroidal current, inertia and pressure. S. N. Bhattacharyya and K. Avinash 349

Kinetic theory for MHD-wave coupling coefficients. R. Elvsén 361

On the relaxation of non-thermal plasmas. A. D. McGowan and J. J. Sanderson 373

Surface-wave–particle interactions in a cylindrical plasma. A. Dengra and J. Ballesteros 389

Nonlinear drift phase-space structures. S. Rath and P. K. Kaw 401

The temporal helicon-wave echo in a plasma with steepened density profile. E. A. Fedutenko and V. I. Lapshin 431

Drift-dissipative instability of the electromagnetic convection mode in a low-temperature plasma. H. Saleem and M. Y. Yu 439

Ion-acoustic wave instability driven by drifting electrons in a generalized Lorentzian distribution. Z. Meng, R. M. Thorne and D. Summers 445

Phase-space description of plasma waves. Part 1. Linear theory. T. Biro and K. Rönnmark 465

Phase-space description of plasma waves. Part 2. Nonlinear theory. K. Rönnmark and T. Biro 479

An inhomogeneous plasma equilibrium: asymptotic self-similar solutions. E. Saiz, J. Gutierrez and Y. Cerrato 491

Relativistic quantum kinetic theory of simulated bremsstrahlung of an axial vacuum mode by an electron beam travelling in a uniform magnetic field. S. H. Kim 505

Effect of finite spectral width on the modulational instability of Alfvén waves. P. C. Roy and J. C. Bhakta 521
